INTERNSHIP EXPERIENCE

Java developer at Codsoft (07/2024 - 08/2024)

- During my internship at CodSoft, I developed Java applications including an ATM Interface, a Student Grade Calculator, and a Bank Account Management System.

PROJECTS

Hotel Dine In Reservation and Food Ordering System

- **About the Project:** A web application that allows users to reserve tables for dine in and order food for dine-in or takeaway.
- **Technology Used:** Built using HTML, CSS, Java, and connected to a database for handling reservations and food orders.
- **Scope of the Project:** To simplify the process of dining reservations and food orders, enabling customers to conveniently book tables or place orders for dine-in and takeaway services.

WORKSHOPS

Introduction to web development, by COE,Rathinam Technical Campus

- Learned to build and style websites using HTML and CSS.

Introduction to Java, by COE,Rathinam Technical Campus

- Learned the basics of Java programming and object-oriented concepts.
